higher education

Fra kamran m. farid <narvan@icdc.net.ir>
Dato to. 09.11.2000 22:13
Til Amir Hashemi <Amir.Hashemi@hib.no>

Dear Mr. Hashemi
I received your visit card by Iran NSA member.
thanks for your interest to help Iranaian youth in their effort to get the higher educations.
I don not know how much you are familiar with Bahai' Institute for higher education (BIHE).
you can help us in many ways,namely
1-teaching thru e-mail
2-coming to Iran and offering a compressed course in area of your specialties.
3-introducing Bahai' professors in your area or around the world as more as you can.
4-helping to introduce BIHE to Bergen College to get admission for our graduates to continue
their studies in your M.SC. programs (if available).
5-to sign a contract with BIHE to present a B.SC or M.SC. programme thru a joint venture procedure.
Items 5 and 4 are the most important priorities for us and then 3,2 and 1 .
of course there are many other ways that you can help us which you may offer,
and we are positively eager to hear from you.
If you have any questions please feel free to ask
Kind Bahai' Regards
Kamran Mortezaei

UHJ-BIHE_amir.doc;

Kjære Amir,

Tusen takk for dette og for din store tjenestevillighet i det å ville hjelpe våre kjære baha'i venner i Iran.
Jeg mener du kan sende dette brevet til Det Universelle Rettferdighetens Hus, email adresse:
<secretariat@bwc.org> og så får vi se hva svaret blir.
Det er helt klart riktig Institusjon å sende det til, så jeg benytter anledningen til å ønske deg varmt lykke til!

Kjærlige baha'i hilsener
Nasjonalt sekretariat
Britt Strandlie Thoresen, sekretær

Dear Amir Aziz,

Congratulations to be selected as the lecturer of the year, such marvelous news it was. It is also a great honor for all of us to witness your great success, since you also are BIHE lecturer too. It is these amazing support and keen considerations, like yours, receiving from all around the world, that convince and assure us that BIHE has started its' pass of honor towards to becoming one the most leading universities of Iran.

We also would like to present our sincere and deep gratitude towards your generous donation to BIHE. While your academic engagement is of the most value at BIHE, your donation certainly will ease BIHE services by great amounts. Thank you so very much.

I am copying this to Mr. Badavam to receive his advice on account no.

It is always a great pleasure to hear from you.
Best regards,
Kamran

Subject: RE: Thanks for your prayers

Dear friends,

The mathematican was too happy last night and
did calculate wrong.
The date was 10.10.2006 .

October 2006 makes 10.2006 , 10+2+6 = 18.
I am still very happy and blessed.

Warm regards,
Amir Masoud Hashemi

Emne: Thanks for your prayers

Dear BIHE ,
I have a good news about my life.
This was one of the most beautiful days of my life: 10.09 (10th September)
As a mathematican I see the number of 19 (19 = 10+9) in this date.

I am delighted to share this with a humble heart with you dearest friends,
since your prayers have supported me and assisted to achieve this great honour.

If you remember in my meeing with you BIHE friends in Tehran in my last days visting Iran in August,
I mentioned I have been nominated for the Lecture of the Year in the faculty of Mathematical Sciences, at University of Bergen, Norway.

I am the pleasure to innform you, your prayers have blessed me and I was called today and was informed I am rewarded this honour. This is an achievement due to a 4 months part time job I had.

The name of lecturer of the year is written on a silverplate and is hanged in the main entrance of the eldest building of the university of Bergen, where usually 3000 students passes daily. The winner will also be rewarded 25000 Norw. Kroner , about 3650 USD.

I am happy to contribute this reward to BIHE.
Before this great event, my two brothers living in Sydney we were planning to contribute a small amount for a science library for our beloved students in Iran.

So I need an account number in the beginning of November to send 5000 USD to BIHE .

Norwegian NSA has been informed and supported my decision.
During the week I will send a more informative email about this great honour.

I hope this express a warm thankness of a detached heart attached to our dear beloved students who bear all problems in the cradle of the faith and continue their education in spite of facing all difficulties. I wish also thank you dear friends in BIHE who offer your time to this important affair. I am grateful also to those friends who offer theirselves as lecturers and teaching assistants living in Iran. I believe “our university will be one of the most important universities in the world”. This is the history and you are the history makers.

I hope this small amount will be a small assistant to provide some science books or other necassary teaching materials. BIHE is quite free to decide how to use this small amount.

In the end I wish to say I will never forget your great kind assistance to send me more than 10 books in the year 2001 when I was going to give a speech in Depoort, Nederland for the Bahai youth about ancient persian scientists.

Without your prayers I would have never acheived this honour, I am really thankful for that.

Sincerely yours,
With warm regards,
Amir Massoud Hashemi
Bergen, Norway

Meeting to discuss possible collaboration with the Biology Department

Fra Arame Raoofy <arame.raoofy@bihe.org>
Dato lø. 31.10.2026 17:02
Til Amir Massoud Hashemi <Amir.Massoud.Hashemi@hvl.no>
Kopi BIHE Department of Biological Sciences <Biology.dept@bihe.org>

Dear Dr. Hashemi,

I am writing to you on behalf of the Department of Biology at the Baha'i Institute of Higher Education. Thank you for sharing your CV and a summary of your teaching and research experience, which Mr. Shidanshidi kindly forwarded to our department. Your background in applied mathematics, modelling, and programming for life-science students is very relevant to the new courses we are developing.

We would be glad to meet with you online to learn more about your availability and the forms of collaboration you have in mind. We are particularly interested in:

- contributing to teaching
- reviewing our syllabi, especially regarding job-market relevance
- course materials such as mathematics notes with programming and biological applications

Would any of the following times suit you (CET)?

- Wednesday 4th, 8pm
- Thursday 5th, 8pm
- Monday 9th, 9am

If none of these work, please feel free to suggest a time that is convenient for you. A 45-minute meeting via Google Meet should be sufficient.

I look forward to speaking with you.

With kind regards,

Arame Raoofi Arani
